At Service Line Warranties of America* (SLWA), we are proud to collaborate with municipalities and utility districts around the country to offer dependable repair plans for homeowners. Your local municipality partners with SLWA, an independent company that offers these optional repair plans for eligible homeowners.

The municipalities listed below are part of SLWA's special reminder mailing happening now. Your municipality and SLWA have an agreement in place to introduce optional repair plans to eligible homeowners. These plans help cover repairs to water or sewer service lines that connect your home to the municipal systems.

Please refer to the letter you received for more information about the features and benefits of this optional program.
